Steps 3

Replace Battery

Pelican Water Systems

# PDF Series Premium Countertop Filter

## Replacement Filter Installation Instructions

## Filter Replacement Instructions

1. Remove hoses by pressing and holding down on the blue and white collet ring while pulling the hose out.
2. Remove ¼ turn caps by turning counterclockwise (follow loosen arrow) from A and B sides
3. Remove old filters from housing. Small filter will remove with cap. Large filter will stay in housing. Use the provided ring to pull the large filter out of the housing.
4. Install new filter cartridges. Insert the small filter with the nipple-end into the cap. Install the large filter with the nipple-end going into the housing (facing down). Press down on the large filter to seat.
5. Tighten ¼ turn caps by turning clockwise until caps are flush and the tabs line up with the "LOCK" arrows in the middle.
6. Reinsert hose with clear/white end into white cap (larger filter) and blue hose into blue cap (small filter) by pushing in until it stops and gently tug up to ensure a seal.
7. Turn on cold water and check for leaks with filter over the sink. If leaks are found, repeat steps 3 and 4 to ensure proper installation. If no leaks, return filter to upright position and go to step 6.
8. Remove outer cover from housing and remove battery compartment insert.
9. Replace battery with new battery and re-insert battery compartment insert.

***Do not use with water that is microbiologically unsafe or of unknown water quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts.***

This filter system is designed and tested for use with genuine Pelican Water System parts including replacement filters and all hardware (diverter valve). Use of parts from other manufacturers may result in loss of contaminant reduction performance, system damage or failure. Use of parts from other manufacturers will also void your warranty.

**Pelican Water Systems is not liable for consequential or incidental damages due to improper installation.**

**Filter is only to be used with cold water.**

**Never use this system on constant-pressure applications such as ice makers or drinking fountains.**

**If you experience a leak at the hose connection, disconnect and re-seat the hose.**
